

PaletteShowroom

The Free Interactive Design Process

Showcase your designs with a virtual exhibition of your projects. Give clients a detailed and interactive experience and capture their imagination, whether that's with photos, graphics, panoramas, 360 photos, virtual rooms or PDF documents. Share the perfect view from your best angles in 3D, 2D images, MOVE files, PLAY files, sections or other perspectives.

Palette Showroom uses intuitive functionality to facilitate seamless design. Filter through an extensive library of products and materials, designed specifically for local trends, and make changes in real time for instant comparisons and alterations. Utilise Palette Cloud technology for fast and collaborative access and give clients, suppliers and partners the opportunity to interact with you virtually – any place, any time.

Palette Showroom is the FREE flexible, versatile and powerful consultation tool saving you time and money by supporting you to master the design process.

PaletteShowroom

For the Pro

Upgrade to Palette Showroom Pro to customise the user interface to reflect your brand and give both your team and your clients a cohesive navigating experience. Encompass your designs within your brand with your unique creative space and increase brand recognition and improve brand image while you share your work.

Indulge in VR

Step into your designs with Palette Showroom Pro and immerse yourself in the future. Design specifically for VR with your **Palette PLAY module[^]** and then put on the VR headset to experience your designs and engage clients with your creativity. Fill their space with your designs virtually so they partner with you to build their new reality.
